

667th Aircraft Control and Warning Squadron (H-3)
Air Forces Iceland (ADU)
UNITED STATES AIR FORCE
Navy No. 568, FPO, New York, New York

SUBJECT: Returnee to the United States of America

TO: Whom It May Concern

1. Very soon now the undersigned will be in your midst, deactivated, demobilized and dehydrated, to take his place again as a human being engaged in the struggle of life, liberty and the somewhat dubious pursuit of happiness. I am asking your cooperation in the preparation to welcome him back to organized society. You must be ready to make allowances for the crude environment which has been his lot for the past year.
2. The medics will probably refer to him as "Rock happy", therefore show no alarm or amusement if he prefers to squat on his knees or haunches instead of sitting in his chair. Keep cool when he pours gravy over his ice cream at the dinner table; take it with a smile when he prefers to sleep in his parka with pile cap and/or hood much in preference to pajamas at night, for he is a poor lost weather beaten soul.
3. Above all, never refer to the condition and unspeakable hardships suffered by those of the home front during the grate occupation. Never ask him why the "Smith" boy held more rank than he did. Make no flattering remarks about the Army, Navy, Marines or Russians. Partly this is for the sake of all mankind. This man will run wild at the slightest mention of Mojacks (Icelanders), extensions, inspections, draftees, wind, rain or rocks, (especially rocks), snowstorms, or K.P. Pay no attention to him if he strikes someone who kicks, throws or molests rocks in any way; for where he was, the rocks were one of his best friends and he talked to them constantly. They were always there to cushion his fall when he slipped in or tne "Icelandic Ice", which in most cases is of a more liquid nature and is commonly known in the United States as "MUD".
4. For the first few months (until he has been housebroken) he will be in constant need of watching. This is especially so when in the company of women particularly the attractive type. After seeing the beautiful women in the romantic movies for two bits at the theater (quonset hut), he feels himself a master at the art of love-making. Keep in mind that kindness and few quarts of good American whiskey will enable you, in time, to rehabilitate the hollow person you once knew as Dave.

ISSUED IN SECRETARY WARNING ON THIS, THE 28 DAY OF JUNE 196 TO FRIEND, NEIGHBORS, RELATIVES, AND ABOVE ALL, THE POOR FAMILY OF THE SUBJECT CREATURE RECENTLY WITH THE "UNITED STATES AIR FORCE IN ICELAND".

53 DAYS TO GO.
